RESEARCH LABORATORY.

Advanced Courses in Physical and Inorganic Chemistry.

The following courses will be given during the coming term at the times and places given below. Advanced students and members of the instructing staff are invited to attend the lecture courses and, provided they wish to become regular working members of the class, to take part in the seminar meetings.

Advanced Inorganic Chemistry. Weekly seminar conducted by Profs. H. P. Talbot and F. J. Moore. Mondays at 8 A.M. in Room 8, Eng. C, beginning February 13.

Advanced Theoretical Chemistry. Weekly seminar conducted by Prof. A. A. Noyes. Fridays at 8 A.M. in Room 18, Eng. C, beginning February 10. Nernst's Theoretische Chemie will be used as a basis of discussion. Pages 499-508 of the 4th edition should be read for the first exercise.

Radio-activity. Weekly seminar conducted by Prof. W. D. Coolidge. Wednesdays at 8 A.M. in Room 18, Eng. C, beginning February 15. Rutherford's book on Radio-activity will be used, sections 126-136 being discussed at the first meeting.

Photo-chemistry. Eight lectures by Prof. H. M. Goodwin, beginning at the middle of the term.

Constitution of Substances in Solution. Fifteen lectures in German by Dr. W. Bottger. Mondays at 4.30 P.M. beginning February 13.

Glass-blowing. Weekly laboratory exercises conducted by Mr. C. A. Kraus, meeting in two sections at 4.30 P.M. on Wednesdays and Thursdays, beginning February 8. The Friday section of last term will meet on Wednesdays, and the Monday section on Thursdays. In regard to individual changes which may be necessary, Mr. Kraus should be consulted. All available places are engaged at present.

Research Reports. Weekly colloquium conducted by Prof. A. A. Noyes and Mr. A. C. Melcher. Saturdays at 8 A.M. beginning February 18.

ATHLETIC NOTES.

Encouraging Showing Made in Trials for Meet To-morrow Night.

G. De W. Marcy, '05 has been substituted for G. H. Chapman, '07, in the 780 yard relay team because of the latter's inability to run.

All men who intend to try for the class Military Relay Teams, should report at the Gym immediately, to Coach Mahan for registration.

All 1907 men who intend to try for the relay team to run in the 40-yard military relay at the Indoor Meet, should be at the Gym, Tuesday, February 14, 1905 at 4 P.M., for the trials.

The Hockey schedule for the remainder of the season is as follows:

February 11, Andover, at Tech Rink. February 14, Franklin A. A. at Tech Rink. February 16, Brookline C. C. at Tech Rink. February 18, Newton Squash Club at Tech Rink.

It will relieve the minds of all Tech men to know that recently Jorge Lage of the Tech Fencing Team has returned to the Institute, contrary to the announcement in the *Boston Herald* of Feb. 5, 1905, that he had entered Columbia. Lage registered Wednesday.

In the B. A. A. games Saturday evening Tech will run against Dartmouth in the 780 yard relay race and against Bowdoin in the 390 yard relay race. The teams are evenly matched and both races should prove extremely interesting.

The single entries for the B. A. A. are large this year and a good showing should be made by many of the men. The training was somewhat broken in upon by the mid-year vacation.

Tech 5, Harvard, '08, 2.

The Tech Hockey Team defeated the Harvard, '08, Hockey Team at the Tech Rink, Park Square, Wednesday afternoon. During the first period the Tech offense kept the puck in their opponents' territory most of the time, and scored 4 goals, while Harvard was able to score but once. In the second period

WILLIAM A. NICHOLS, PRINTER, 238 SUMMER ST., REAR

To those who enjoy an athletic contest of high standard, the B. A. A. meet tomorrow should prove no disappointment. To Tech men it should be particularly interesting on account of our strong list of individual entries, and because of the two team races. In the 390 yard relay with Bowdoin, Tech's chances are very favorable. The 780-yard race with Dartmouth is more doubtful because of the three fast half-mile men who are to run against Tech.

At last the Hockey Team has accomplished something worthy of commendation. In the recent games with preparatory and high schools the showing made has hardly done credit to a college team, but in defeating the Harvard Freshmen the men showed a gratifying improvement both in team work and in individual play. The fellows seemed to recognize the necessity of putting more energy into their work, and this together with the holiday practice has resulted in an encouraging improvement in form. Much still remains to be done to bring the work of the team up to collegiate standard, and with continued practice this should soon be accomplished.

Tech House.

One of the most unostentatious
branches of student activity at the
Institute, and one which is at the
same time one of the most praise-
worthy in its character is the or-
ganization known as Tech House.
This is situated in one of the poorer
parts of the city in the heart of a
tenement district, and here about a
dozen students of the Institute live
for the purpose of becoming better
acquainted with this phase of life
and at the same time of benefiting
some one else.Tech House is doing a much
needed work in this direction and it
would be a benefit to the commu-
nity if the idea could be extended.
A student can derive great benefit
from such an experience, for by
this means a man is shown dif-
ferent industrial conditions, which
in view of the present relations of
capital and labor, may be of great
value to him.**Theatre Attractions**CASTLE SQ.—"Held by the Enemy."
